

READY-TO-USE OTT PLATFORM

Cross platform TV apps, monetization, protection and operations — delivered end to end.

- ✔ Smart TV & AndroidTV, iOS/Android, Web
- ✔ DRM (Widevine/PlayReady/FairPlay), GDPR/TCF-friendly
- ✔ 24/7 support, device-lab QA, fast store approvals

Store ready apps for Android TV / Tizen / webOS

Built in DRM & consent flows

Pilot in weeks, not months

Highest performing apps

Independent testing on real TVs; shared design system keeps UX consistent and releases predictable.

Store certification & 24/7 ops

Samsung/LG/Google/Apple experience. We manage releases and incidents so your team focuses on content and growth.

Real device lab & QA

Android TV, Tizen, webOS, iOS/Android and web coverage with automated and manual checks.

Integrations you can count on

Deep operator billing (DCB), Single Sign-On, entitlements sync, partner reporting and bundles.

Studio grade protection

DRM (Widevine/PlayReady/FairPlay), rights windows, geo/IP, concurrency, audit.

QoE monitoring

Startup time, rebuffer ratio, crash-free sessions, bitrate — dashboards that tie quality to revenue.

Start time (p50)

< 2.0s

Rebuffer ratio

< 0.3%

Crash free sessions

> 99.5%

Our OTT Experience

Frontend (apps)

Web, Android, iOS/iPadOS, Android TV/Google TV, tvOS, Samsung Tizen, LG webOS. Store certification and device-lab QA included.

DRM & rights

Widevine / PlayReady / FairPlay. Geo/IP and concurrency limits, license windows, audit trail.

Ads & monetization

VAST/VPAID/IMA today, SSAI option. Subscriptions, bundles, coupons. Dashboards for fill-rate and eCPM.

ISP billing & SSO

Direct Carrier Billing (DCB), account linking, bundled offers on invoice. OIDC/SAML SSO and entitlements sync.

CDN & QoE

Multi-CDN routing, origin shielding, ABR tuning. Dashboards for startup time, rebuffer, errors.

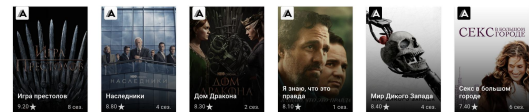

OTT B2B solutions

Syndication to operators, Media API, partner portals, secure feeds.

Case Snapshots
